

## Microfibre Doormat

*Washable door mat with super absorbency and microfibre technology*

- Multi-action entrance mat with hygienic microfibre technology. Flexible, ultra-fine fibres (finer than a human hair) provide deep- cleaning action on passing footwear.
- Friction from the fibres generates a static charge that attracts and traps dust/debris.
- Effectively penetrates those hard to reach treads on footwear and wheeled trolleys.
- Superior 'brushing and wiping' with 'rapid dry' properties that outperform cotton.
- Luxuriously soft pile that keeps entrances looking smart, stylish and free from lint.
- Environmentally-friendly – does not require chemical pre-treatment or washing detergents.
